

## **ECTS credit points awarded upon successful completion of German Language & Communication Courses provided by the Bayreuth Summer University**

At the end of the Summer University each participant can receive a certificate for the attended courses. This certificate is issued when you regularly participate in the courses and pass a written test at the end. The ECTS credit points achieved are shown on the certificate. These ECTS credit points may be credited by your home university as academic achievement (you should consult your university on this issue). If you do not wish to take an exam, you will receive a confirmation of attendance.

Successful completion of the course requires that the student is regularly present at both the morning language course and the communication course in the afternoons, as well as pass an end-of-course test in the morning language course.

<b>Morning language course</b> + Language and communication course	4 ECTS
